\*Rate Per Person:

4 days...\$1,195

5 days...\$1,285

6 days...\$1,375

7 days...\$1,465

Larus is the perfect setting, located 150 miles north of our air base on the Bloodvein River System in the heart of the Woodland Caribou Provincial Park. Here nature still rules and you will have an opportunity to see Moose, Caribou, Bear and Eagles. Larus being six miles in length with inlet rapids, deep water, and plenty of structure ensures some of the best Walleye and Northern fishing in Northwestern Ontario. Larus offers the angler an opportunity to catch high numbers of trophy-class

fish each day. On the average you can expect that at least one or two people out of your group is going to bring a Walleye to the boat over six pounds and add to that the possibility of a 48" Northern. Larus has been the location for a number of television commercials. Larus has played host to fisherman from around the globe, stretching from France, Germany, Switzerland and all the way south to Ecuador. We are the only outfitter on this lake, having two locations: one on a lovely sand beach and the other in a well-sheltered bay.

The bay cabin sets the standards of fly-in fishing in the twenty-first century. The beach location is set up with a separate kitchen/living area and sleeping cabin.
